MAN OF THE YEAR AWARDS 2021

"Live with passion and live with purpose"

BY HOMBRES CON PROPÓSITO

OBJECTIVES

Hombres con Propósito also known as Men of purpose is a non-profit outreach organization which unites efforts to serve the communities of Miami-Dade and supports local entities through donations and fundraising in the planning of creative events.

The “Man of the Year Award Luncheon” is one of these events. This year some of the proceedings gathered in our luncheon will be donated to the organizations, PATCHES and Youth for Christ KIX. The funds will also go toward a youth sport scholarship program.

This event will serve to honor the men whose contributions are invaluable in the pursuit of serving our City of Homestead as we reach fundraising goals and extend our service to the community.

CITY LIFE KIX MIAMI

After graduating from college, Stacy Morales moved from Michigan to Miami, Florida to begin her teaching career at West Homestead Elementary School. The summer of 1992, she went to Chicago to do inner city ministry. She was scheduled to return to Homestead on August 24, 1992. Hurricane Andrew. Anyone remember it?

Through the devastation, God showed her the love she had for the neighborhood around her school. As a result of the hurricane, the KIX ministry was born on February 1, 1993, fully run by Stacy and a group of volunteers! After meeting the Executive Director of Youth for Christ (YFC) in 1995, Stacy decided YFC was the place for her and the KIX ministry, so in June of 1996, she left the classroom and became a missionary with Greater Miami Youth for Christ.

She is now the director of City Life KIX. Their mission, offer help, hope, and wholeness to under-resourced children and youth. YFC desires to see their students become lifelong followers of Jesus!

Today, City Life KIX serves more than 200 children and youth annually in three locations of Miami-Dade County: West Homestead/Florida City; Jordan Commons in Princeton (the nation's largest Habitat for Humanity community); and North Miami, in partnership with Vive City Chapel. These communities may be characterized by high crime and high levels of poverty but the City Life KIX staff see youth with grit and determination, who rise above daily trauma and can succeed in life. Adults come alongside students to help them view themselves differently, as natural leaders and contributors, to be the change they want to see. In December 2013, thanks to the support of many generous donors, Miami YFC was able to purchase a building for the City Life KIX West Homestead site, making it possible to serve many more students than ever before.

City Life KIX shares the love of Christ with youth & families, while also providing a safe place for young people to learn & grow in the Gospel. "Doing life" with kids & empowering them to change their community for Christ is key to the City Life KIX mission. The goal is to reach a critical mass of indigenous leaders who stay in, give back to, and transform their neighborhood. "Live here, Lead here" is their motto!

City Life KIX provides all-inclusive, after-school services for urban children and youth from elementary through high school at each of their sites. The young people participate in fun, engaging activities on a daily basis. The program includes Character Counts Bible studies and small group mentoring, homework assistance, physical fitness, the arts, social and emotional learning, life skills development, and most importantly an Indigenous Leadership Program.

In 2019, City Life KIX launched KIX Clubs, which are run by high school student leaders from the neighborhood and serve elementary youth. Developing youth into civically-minded, self-sacrificial leaders who live and lead in their community is of highest value. Miami YFC City Life KIX Indigenous Leadership Program develops young leaders who value and give back to their community. This important program presents a unique opportunity to change the community from the inside out!

PATCHES

PATCHES PPEC is a non-profit organization in Florida City where children with extremely complex medical needs are given culturally sensitive, compassionate nursing care so they may reach their full potential. We offer educational services and programs for parents to aid families in understanding their child's needs and conditions. By providing best practice interventions, our nurses and therapists help each child reach maximum health so they can develop and grow.

In addition to nursing care, we provide our patients with occupational, physical, speech, and respiratory therapies in a warm, caring, and safe environment. We have contracts with Miami-Dade Public Schools for children to receive quality education within our facility while still being closely monitored by Pediatric Nurses. Through these efforts, parents can comfortably maintain employment or attend school without fear that their child will experience a significant health event that could otherwise go unnoticed.

PATCHES believes in the dignity of people and strives to provide the highest quality care to our patients and families. By serving the littlest, weakest, and sickest in our population we strive to improve the quality of our community. We believe the strength of the community begins with the most vulnerable in the population and we work tirelessly every day to keep our families safe.

CHRISTOPHER WILLIAMS

PATCHES Pediatric Prescribed Extended Care

BIOGRAPHY

Christopher Williams, is a Miami native. After searching for some time for the “right fit,” Chris has spent the past six years working at PATCHES Pediatric Prescribed Extended Care (Patches PPEC, for short) in Florida City, Florida. Every day of the week, he and the dedicated staff at PATCHES care for some of the most medically vulnerable children in our community.

He brings a positive attitude and professional leadership to work with him every day, but makes sure to coat it with a dose of humor and a smile to make his patients and colleagues feel at ease. Chris blends the best of nursing into his work at Patches—exceptional clinical knowledge with empathy, compassion, and a genuine love for his little patients.

During his time at PATCHES, Chris has held many positions including EMT, nurse, and currently serves as charge nurse for the facility.

When he is not providing direct care to “his kids,” Chris can be found lobbying for PPEC interests and pediatric nursing in Tallahassee, fundraising around town to make sure his facility has everything they need, or teaching courses at a local college of nursing. In his free time, Chris likes the usuals: spending time with his family and friends, playing with his dog, and jumping on a skateboard (or maybe some combination of the three!).

JULES ALTIDOR

West Homestead Site Director of City Life Kix

BIOGRAPHY

Jules Altidor grew up in the southwest neighborhood of Homestead around City Life KIX. He didn't really have the guidance from his siblings and his parents were always at work. This caused Jules to look for guidance from the wrong crowd and do things that got him trouble often. Growing up, Jules was a troubled kid in the West Homestead area. Things changed when Jules met a friend who was more than a brother to him, who guided and invested in him and eventually led him to Christ.

When he graduated from high school in 2011, he found himself looking for a job that would give him purpose. He reached out to his cousin who was working at City Life KIX and he asked Jules to volunteer at a football tournament he was planning. His love for the game and his passion for Jesus intersected! He started volunteering everyday. With each day he got closer to the kids, listened to their stories, and heard their struggles. Slowly he began to realize that his life growing up was very similar to the young people at KIX. The kids gravitated towards him. He was able to teach, mentor, and guide them through circumstances that he himself wasn't able to avoid when he was younger. Jules showed them things they didn't see in themselves.

Jules started working at Miami Youth for Christ in the City Life KIX ministry in 2013. This allows him to be that big brother he never really had and to invest in young people who need godly male role models. Working at Miami YFC allows him to invest in the same community he was raised in. This past year Jules took on a new challenge as the West Homestead Site Director. Now he not only mentors students but also leads a team of six staff.

The day after our country celebrated Memorial Day by remembering those that have paid the ultimate sacrifice defending our freedoms, **Homestead Air Reserve Base** welcomed home a large group of battlefield veterans.

Hero's Welcomed Home

At approximately 8:00 a.m., a commercial jumbo-jet landed, filled with Service personnel that had been deployed to the Middle East for the past six months.

Waiting on the tarmac were wives, husbands, children, moms and dads that were waving our flag, holding signs and cheering for the brave as they stepped off the plane.

Along with the many arriving home was young Airman Dakota Maddox. Among the joyous tears, smiles and kisses all around, his had a little extra something.

This was the first time he was able to meet his 6-month old daughter. She was born just after his deployment. God bless the men and women that serve this country every day.
